

## A journal cancellation survey and resulting impact on interlibrary loan

Jacob L. Nash, MSLIS, AHIP; Karen R. McElfresh, MSLS, AHIP

### APPENDIX

#### Survey

**HSLIC Journal Survey**

**Health Sciences Library and Informatics Center Journal Survey**

Mr. Nash, MSLIS from the Health Sciences Library and Informatics Center, is conducting a research study. The purpose of the study is to assess the HSC research, education, and clinical population's use of and need for various high cost subscription journals. You are being asked to participate in this study because you are a member of this population who reads the journals within the Health Sciences Literature.

Your participation will involve taking a brief survey. The survey should take about 5 minutes to complete. Your involvement in the study is voluntary, and you may choose not to participate. There are no names or identifying information associated with this survey. The survey includes questions such as what department you are from and what journals you find essential for your work. You can refuse to answer any of the questions at any time. There are no known risks in this study, but some individuals may experience discomfort when answering questions. All data will be kept for 1 year in a locked file in Mr. Nash's office and then destroyed.

The findings from this project will provide information on which high cost serials can be discontinued with little impact on the HSC research, education, and clinical population. If published, results will be presented in summary form only.

If you have any questions about this research project, please feel free to call Mr. Nash at (505)272-9896. If you have questions regarding your legal rights as a research subject, you may call the UNMHSC Office of Human Research Protections at (505) 272-1129.

By continuing on with this survey, you are consenting to participate in this research.

**Health Sciences Library and Informatics Center Journal Collections Survey**

It should take you less than 5 minutes to complete our survey.

The Health Sciences Library and Informatics Center needs your feedback on journal subscriptions to renew or cancel.

Due to the rising prices of subscription journals and a budget shortfall,

the library will have to cancel subscriptions to some of these journals.

Your feedback is very important in making these decisions.

**Thank you** for completing this brief survey.

**HSLIC Journal Survey**

**Professional Information**

1. Please indicate your primary academic or clinical affiliation from the dropdown menu.

If your department or college is NOT listed, please add it under "other" at the end of the list.

- College of Nursing
- College of Pharmacy
- Anesthesiology & Critical Care Medicine
- Biochemistry & Molecular Biology
- Cell Biology and Physiology
- Dental Medicine
- Dermatology
- Emergency Medicine
- Family and Community Medicine
- HSC Administration
- Internal Medicine
- Medical Group
- Molecular Genetics & Microbiology
- Neurology
- Neurosciences
- Neurosurgery
- Obstetrics & Gynecology
- Orthopedics & Rehabilitation
- Pathology
- Pediatrics

2. Please indicate your UNM status.

- Faculty
- Staff
- Resident
- Student

**HSLIC Journal Survey**

**Journals**

3. Journal subscriptions HSLIC is considering for cancellation are listed below.

Please indicate which of these 37 journals are essential to your work, important to your work, and which are useful, but not essential to your work. For those you rarely use, select Rarely used.

For those resource you do NOT use, please leave the default option of **Never Used**.

A space is provided below for you to tell us more about your choices.

Publication Title	2013 Cost	2013 Uses	Major Subject Area	Choice
Advances in Neonatal Care	\$1,193	304	Perinatology	Never used ▼
American Journal of Drug and Alcohol Abuse	\$2,347	195	Public Health	Never used ▼
