

SPI-Hub™: a gateway to scholarly publishing information

Taneya Y. Koonce, MSLS, MPH; Mallory N. Blasingame, MA, MSIS; Jerry Zhao, MS, MLIS; Annette M. Williams, MLS; Jing Su, MD, MS; Spencer J. DesAutels, MLIS; Dario A. Giuse, Dr.Ing., MS, FACMI; John D. Clark, MS; Zachary E. Fox, MSIS; Nunzia Bettinsoli Giuse, MD, MLS, FACMI, FMLA

APPENDIX D

Search by Author functionality

The screenshot shows the SPI-Hub search interface. At the top left is the Vanderbilt University Medical Center logo. The main header features a magnifying glass icon and the text 'SPI-Hub™ Scholarly Publishing Information Hub'. Below the header are navigation tabs: 'Overview', 'Search', 'Resources', and 'Contact Us'. Underneath these are sub-tabs: 'Topic', 'Journal', and 'Author', with 'Author' being the active tab. The main content area is titled 'Analyze journals in author bibliographies by using:'. It lists three search methods: 'ORCID ID', 'NCBI My Bibliography URL', and 'A Public Zotero group or personal library URL'. Each method has a corresponding input field. A 'Submit' button is located at the bottom right. A tooltip is displayed over the input fields, explaining that this option allows users to search using an individual author's ORCID ID, NCBI My Bibliography URL, or public Zotero group or personal library URL to find where colleagues have published in a similar field of research, providing another mechanism for authors to identify journals in which to publish their scholarly work.

-
- The screenshot shows the SPI-Hub search results for an author. The header and navigation tabs are identical to the previous screenshot. Below the navigation tabs, there is a 'Feedback' button on the right side. The main content area contains the following text: 'Below is a list of journals in which the author has published according to the author's ORCID account. Click each title to see the journal's details. If a journal in the list is not in SPI-Hub™, it will appear in black text at the bottom of the page.' Below this text is a list of journal titles, each in blue text and underlined, indicating they are clickable. The list includes: Academic medicine, American journal of preventive medicine, Artificial intelligence in medicine, BMC public health, Bulletin of the Medical Library Association, Computers and biomedical research, an international journal, Cost & quality quarterly journal, Journal of health communication, Journal of medical Internet research, Journal of the American Medical Informatics Association, Journal of the Medical Library Association, and Methods of information in medicine.
