† At some institutions, a separate veterinary or animal health library was created; at others, a life sciences or medical library may contain materials dedicated to supporting the veterinary school as noted.

Sources: Various sources were used to compile data concerning the veterinary libraries, including personal communications from current and past veterinary medical librarians (2015 and 2019), published and unpublished veterinary library histories, American Veterinary Medical Association (AVMA) directory and resource manuals, and other resource materials. Copies of personal communications are available in the MLA Veterinary Medical Libraries Section Archives located at the Medical Sciences Library, Texas A & M University, College Station, TX.
